

ComancheZOOM for Thursday, April 25, 2024

Topic: Aircraft Modifications - Part 3

This ComancheZOOM continues our series on aircraft modifications. We will be discussing 337 use when making changes or repairs to our Comanches and other aircraft.

David Schober, an A&P, IA, DER in the Frederick MD area, has put together a very detailed presentation. He will discuss:

- what a 337 is,
- how it is applied to aircraft modifications or repairs,
- how existing 337 Approved Data can be used on similar aircraft,
- and anything else that comes up in Q&A.

This Zoom was eligible for FAA WINGS / AMT credit. Attendees registered at Wings.NortheastComanche.Org with their name, phone number, email, and checked WINGS or AMT credit. When joining the Zoom, they must be sure that their on-screen name matches their registration name to receive credit. Attendance is required for WINGS credit.

This topic will be continued as Part-3B in the near future, focusing more on the AMT paperwork requirements.
