

ComancheZOOM for August 17, 2023

Topic: Medical Series #1

Dr Tom Wasser, Senior FAA AME, kicks off Part #1 of a medical series with AMEs, Medical professionals, and specialists who are also pilots, targeted at high performance piston pilots like Comanche pilots and similar.

Dr Wasser began in the USAF as a flight surgeon in the F16, and now has over 50 years of experience as a practicing AME! However, Tom is also a pilot and an aircraft homebuilder who is fair, accurate, knows the rules, and also knows safe flying as a longtime pilot. As a homebuilder knows innards of aircraft better than the average bear - or pilot.

In this series opener we will be talking about Basic Med, LSA rules, special issuance medicals, physiology of altitude, health care for pilots, topics in cardiac and respiratory systems related to aviation, and staying sharp and healthy as we go through our lives as aviators.

Doc Wasser is his own best advertisement! He recently completed a Sonex homebuilt, flies a 1982 Mooney built for him at the factory, and flies to Sun and Fun and Oshkosh every year, volunteering copiously.
