

ComancheZOOM August 27, 2020

Comanche Emergency Procedures and the Psychology of their use

- George Merriam, CFII, Wright Brothers 50 Year Award winner
- Robert Lenert, BLD FSDO FASTTeam member

This Zoom workshop was eligible for FAA WINGS credit

In this safety ComancheZOOM session we took a long look at the various Emergency Procedures published for Comanches. Sources included the CheckMate checklist published for the PA24-250, the Larry Larkin checklist published through the ICS, and photographic copies of POH materials for various models, from the 24-180 through the Twins.

George Merriam brought us his knowledge from 50+ years as a CFII and 15,000+ hours of pilot experience. Many in the Zoom audience also contributed comments to the discussion from their Comanche knowledge and experiences.
