

ComancheZOOM for Thursday, July 18, 2024

Topic: Flight Safety Planning

The scheduled “Older Pilots - Staying Physically and Mentally Sharp” was postponed due to a family surgery with the presenter. As a replacement we brought four timely short topics:

1. **Density altitude reality check** and how it applies to Comanche drivers. If you are flying to OSH from the west coast, please try to listen in and participate. We use a portion of a recorded talk by Mike Patey, along with narrations by Zoom attending pilots.
2. **Preventable fatals:** Decision making and a 3 strikes policy to consider, again listening to portions of the recorded talk by Mike Patey.
3. Rick Mascari landed at AirVenture this morning and was to take us through his setting up and flying the OSH arrival. Unfortunately, Mike was not able to join – no internet access.
4. **Comanche 400 celebration fly-in:** why what when where how to join this October 4 through 6 celebrations at Lake of the Ozarks (KOZS) in Missouri. Charly Horton, 400 driver extraordinaire, talked about the fly-in plans and the many speed mods he has made to his Comanche.

All in all, an interesting evening.
