ComancheZOOM Subject: Glass Cockpit vs 6-Pack - Part 2

FAAS Team's newest anointed rep, Rosemarie Williams, will lead Part 2 of "glass panel upgrades: benefits and unanticipated dangers"

This part will cover relevant portions of several surprising studies from Embry Riddle and NASA, studies on automation and human factors, showing increased and decreased accidents of particular types following glass upgrades, as well as GA-relevant excerpts of "children of the magenta line", from the famous instructional series by American Airlines legendary instructor Capt. Vanderburgh.

There was also further discussion of the inner workings of the computer driven glass avionics to help understand various failure modes.

Be sure to check the Chat file for links to material from the presentation.

Pete
