

Dwight Coombe on "Aircraft Insurance: Translating the Jargon"

Time: June 11, 2020. Doors open 7:00 PM Eastern Time (23:00 Z). Presentation starts at 7:30.

The meeting opened at 7:00 PM ET for pre-session hangar flying. Informal introductions started around 7:15. During the meeting begins, the CHAT box was used to pose questions. The presentation started at 7:30, at about the 30-minute mark in the recordings below.

Dwight Coombe is a long time Comanche 260C owner and the Northeast and New York representative for one of the few Aircraft Insurance agencies. His understanding of the specific terminology found in Aircraft Insurance, and of the forces that influence the costs, was quite evident in the presentation and in his answers to the questions raised later.

This is the 7th in a series of free sessions organized by the Northeast Comanche Tribe, Inc. As a fleet we are thankful for the Northeast Comanche Tribe, Inc.'s leadership and the immense amount of work they (and their families) have undertaken behind the scenes to make these sessions happen. Previous sessions on aircraft logbooks, Comanche autopilot history and current options, resurrected torque tubes, Owner provided parts and medical issues can be seen at <http://www.quietcornerbands.org/Flight/ICS-NE/ComancheZOOM.htm>

Forecasted future sessions include: New Life for Old Autopilots, new STEC Autopilot status and progress, new Garmin Autopilots status and progress, TRIO Autopilots status and progress, Part 43: Maintenance by you, Comanche speed mods-panel of experts, AME topics, part 2, Comanche Ops and maintenance, Long Distance Flying Tips, Landing gear maintenance with Neubert and Kurke, Gear AD review, LHV, birthplace of the Piper Comanche, by Piper Museum President John Bryerton
