

ComancheZOOM for Thursday, June 13, 2024

Topic: Open Mic discussion

There was no particular topic planned for this Zoom so we opened the evening for group discussion. Several subjects were kicked around.

- Adam Heit had a number of questions regarding correcting corrosion found on a project Comanche. Several A&P's in the audience made suggestions.
- Pete Morse brought up Sam Cowel's comment from last week regarding the minimal training for Private Pilot candidates in instrument flying. His experience is in training Navy pilots where flying on instruments is an early part of the course. It was suggested on the Zoom that we, as pilots, need to practice instrument work (like approaches) frequently. This will help to familiarize us with what is available through our GPS and give us confidence should we happen to encounter IMC on a VFR flight.
- Two fly-in events were also mentioned: Airport Day at Montgomery County (MGJ) in NY on July 13, and the PA-400 get together at Lake of the Ozarks from October 4 through 6.

All in all, an interesting evening.
