

ComancheZOOM for Thursday, June 27, 2024

Topic: Electrical failure on approach in the DC SFRA

After an extensive panel upgrade adventure, John Futter and George Merriam were flying John's Comanche 260 on an approach within the DC SAFRA when everything went black. Total electrical failure!

Watch the recording of this interesting presentation on the Zoom. We were not able to set up WINGS credit for this presentation - too short notice.

Note that, because of the scheduled Presidential Debate, we shortened our Zoom presentation to wrap it up before the debate begins at 9:00 PM EDT (0100 Z). This is the time frame of the recording.

For those who wished to stay on we continued the Zoom for further comments. This topic may well lead to a subsequent ComancheZOOM on the perils of panel avionics upgrades.
