

ComancheZOOM for Thursday, May 2, 2024

Topic: Comanche future

This Zoom was an open discussion of topics related to keeping our Comanches airworthy and safe.

What we hoped to discuss:

- How can we keep our aging Comanche aircraft flying?
- Where will replacement parts (new or repaired) come from?
- What can we do about the onerous ADs now existing or planned?
- Who will take up the type support we so badly need?
- What products or services may become available (or lost) in the future?
- What changes or additions should be made to the NortheastComanche.Org website?

Suggestions for the website included collecting a list of parts sources such as salvage yards, making a list of knowledgeable repair shops for our aircraft and the unique components, and a contact list for Comanche specific gadgets like autopilots, gear conduits, trunnions, etc. The Zoom lasted well over an hour and many bits of information appeared in the Chat text.
