

ComancheZOOM for Thursday, May , 92024

Topic: Comanche future – Part 2

This Zoom was an open discussion of topics related to keeping our Comanches airworthy and safe. Tonight we hoped to continue our discussion of:

- What shops or FBOs offer Comanche specific repairs or installations.
- Where can we get replacement parts (new or repaired).
- Where do you go for a quality Comanche annual inspection.
- If you have Comanche questions, who do you call.
- What products or services should become available in the future.
- How helpful is the NortheastComanche.Org website.

Most of the discussion centered on Comanche pilot training, in particular for new owners and for recurrency training. It was felt that this area has been neglected and that the various insurance companies would possibly applaud participation with discounts. The Zoom lasted well over an hour and many bits of information appeared in the Chat text .

A future Zoom would delve into the question of insurance for our elderly aircraft and pilots.
